

- D3
- [q] c) a flexible material surrounding a first portion of the braid, forming a flexible lead body, the flexible material not surrounding a second portion of the braid, forming an array, the array being deformable into a predictable geometric shape,
 - [r] d) at least twenty-four electrodes on the braided wire array, each electrode in electronic communication with a single wire in the array.
-

REMARKS

Restriction Requirement:

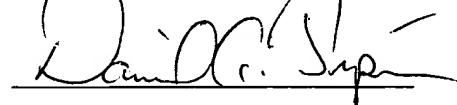

The present application has been subject to a restriction requirement. In the requirement, the Examiner has identified seven inventions (Groups I - VII). Group II, directed to claims 18 through 38, is hereby elected. The elected claims have been amended above. Non-elected claims (15-17, and 39-51) are hereby cancelled, and are contained in divisional applications filed separately.

CONCLUSION

All of the claims remaining in this application should now be seen to be in condition for allowance. The prompt issuance of a notice to that effect is solicited.

Respectfully Submitted,
ENDOCARDIAL SOLUTIONS, INC.
By its attorneys:
